Dear Ms Bryant,

It is with great pride and joy; we endorse the sentiments of fellow Caribbean Nationals in naming the Black & Caribbean Heritage Collection after Dr. Rita Cox. We the executive and members of the Trinidad & Tobago Association of Ontario have benefited over the years through her dedication and support of our association. Dr Cox was one of the founding members who strived to ensure that Trinidadians and Tobagonians living here in Canada excelled, and participated in any venture that supported the Canadian experience, and lived it with pride and dignity.

We believe that naming this collection after Dr. Cox would be the most fitting way of acknowledging her professional and voluntary contributions made to our society. Her work would live on in the lives of those she have made a difference to and their generations to come.

We hope that you would take this into consideration in making your decision.

Thank you,

Yours Respectfully,
