RECEIVED

Dear Ms. Mason:

Thank you for your letter and copy of your 2002 Annual Report, addressed to Jean-Claude Villiard, Deputy Minister of Industry and for your recognition of Industry Canada's contribution to the delivery of the Connecting Canadians agenda.

Industry Canada recognizes the important role that public libraries across Canada have made to the achievement of the government's broad-based connectivity objectives by providing Canadians with access to the Information Highway, training and electronic government information and services.

I look forward to receiving the proposal being prepared by the Council of Administrators of Large Urban Public Libraries (CALUPL) to Industry Canada for a sustainable partnership.

Thank you again for your interest in this issue.

Yours sincerely,

Ross MacLeod
Director General, Programs
Information Highway Applications Branch
