Toronto

To: Members of the Board, Toronto Public Library

Dear Board Members:

Funding to the Toronto Public Library must have been cut as you are now asking readers to check out their own material. I would prefer that staff be supplied with JOBS.

Could savings be found in other areas such as buying less material, opening fewer hours, finding cheaper accommodation, etc. I'm sure you have thought long and hard over these issues.

How about charging for library cards?

I would like people to be employed!

Thanks,

K. Limion
