\*Note: Based on complement figures dated August 31, 2011. 2012 efficiency reductions are not reflected.

#### **Representative Research & Reference Department Complements**

Because of the breadth of Research & Reference services and the unique or system-wide nature of some of them, there is considerable variety in the structure of departments.

The subject departments, large and small, have a fairly consistent structure: Senior Department Head, Services Specialist, Librarians, Senior Library Assistant, Public Service Assistants (and Pages at NYCL only).

NYCL's Circulation, Browsery and Teens Department is an example of a large multifunctional circulation department and has a Senior Department Head, Operations Supervisors, Services Specialist (for youth services), Librarians, Senior Library Assistants, Public Service Assistants and Pages.

Answerline, the system-wide quick information service, is one of the unique departments and has a Senior Department Head, Librarians and Senior Library Assistants.

Preservation and Digitization is an example of another specialized department. It includes a Senior Department Head, Conservators, Exhibits Designer, Photographer, Digital Collections Technicians and a Binding and Collections Maintenance Assistant.

## SMALL NEIGHBOURHOOD BRANCH

Note:

- There are 31 small neighbourhood branches across the City
- The number of staff per position in each branch is determined by the factors outlined on page 3 of the report

## MEDIUM NEIGHBOURHOOD BRANCH

Note: • There are 38 medium neighbourhood 2 branches across the City  
• The number of staff per position in each branch is determined by the factors outlined on page 3 of the report

## LARGE NEIGHBOURHOOD BRANCH

Note: • There are 8 large neighbourhood 1 branches across the City  
• The number of staff per position in each branch is determined by the factors outlined on page 3 of the report

## DISTRICT BRANCH

Note:

- There are 17 district branches across the City
- The number of staff per position in each branch is determined by the factors outlined on page 3 of the report
