**Inventory**

Correspondence, autographs collected by Miss Cara Hartwell of Toronto. Includes letters from many famous personalities in the arts world, actors, playwrights, authors, opera singers, dancers and film directors. Also includes photographs, many autographed, of music personalities, a series of autograph books, and a collection of autographed cards. Among the letters are letters from W. Somerset Maugham from 1935 to 1955, several mentioning his tastes in literature and commenting on some of his own books and plans for books. There is also a series of letters from dancer Ted Shawn relating interesting anecdotes about his experiences with motion pictures and with astrology. Especially informative is correspondence from other film fans describing visits to retired movie stars and giving biographical details and “what ever happened to” information on stars of the silent film era.

Over the years, Miss Hartwell has made many generous gifts to the Theatre Department. Her donation of photographs and film stills formed the basis of the department’s photograph collection. The photos of actors and dancers from this most recent gift have been interfiled with this larger collection. Her gifts of books, recordings and such film fan periodicals as *Photoplay* have also been added to the general collection.
