

STAFF REPORT INFORMATION ONLY

Annual Statistical Report to the Information and Privacy Commissioner of Ontario

Date: March 23, 2026
To: Toronto Public Library Board
From: City Librarian

SUMMARY

This report provides a summary of Toronto Public Library's 2025 submission to the Information and Privacy Commissioner of Ontario ("IPC") in compliance with the Municipal Freedom of Information and Protection of Privacy Act ("MFIPPA").

FINANCIAL IMPACT

There is no financial impact arising from the information in this report.

The Director, Finance & Chief Financial Officer has reviewed this financial impact statement and agrees with it.

ALIGNMENT WITH STRATEGIC PLAN

TPL provides its annual report to the IPC in compliance with MFIPPA. The freedom of information (FOI) process itself is designed to provide residents of Toronto, and other members of the public, with increased transparency and accountability by responding to FOI requests. Disclosure of information to the public is in alignment

with TPL's 2025-2029 Strategic Plan, namely it provides the vital ingredients for a democratic society.

EQUITY IMPACT STATEMENT

To meet the obligations under MFIPPA, the Library has a robust procedure for processing freedom of information requests and tracking these to enable internal oversight and annual reporting to the IPC. The procedure is designed to provide equitable access to Library records to all members of the public.

DECISION HISTORY

At its [meeting on March 26, 2007](#), the Library Board requested that staff report on the annual report submitted to the IPC.

ISSUE BACKGROUND

TPL is governed by MFIPPA, which requires that the Library submit an annual report to the IPC on the statistics specified by the IPC. The IPC has jurisdiction and interest in gathering and analyzing annual statistics from institutions that are subject to laws over which the IPC has oversight. This report enables the collection and comparison of data across the province.

COMMENTS

Overview of Requests

Toronto Public Library received five (5) new, complete requests for access to records in 2025 that met the criteria for a request under MFIPPA. Four (4) requests were completed in 2025, and one was carried over into 2026.

Of the requests completed, three (3) were closed within the statutory timeframe of 30 days and one (1) required a notice of extension and a notice to affected persons, as permitted under MFIPPA, due to the requirement to review records and to consult with third parties before issuing a final decision about access to the requested records.

No fees were charged if records were not found or if access was refused. In 2025, fees were only charged for three (3) requests, as access was refused in part in one (1) instance, and in one (1) instance the request was abandoned.

Information and Privacy Commissioner Activity

Under MFIPPA, each requestor has the right to appeal the Library's decision about releasing records to the IPC. Only one (1) appeal was filed in 2025, which was subsequently withdrawn by the individual after successful resolution with TPL without IPC involvement.

Proactive Disclosure

The spirit of MFIPPA is to provide mechanisms for greater transparency in government, while protecting personal information. MFIPPA does not restrict an institution's ability to proactively disclose information that is not confidential and in which the public is likely to have an interest. Proactive disclosure is strongly supported by the current privacy commissioner. The Library routinely discloses information to the public and continues to make a wide range of information available to the public, from Board documents and minutes to aggregate statistics.

Finally, many informal requests for information from the Library were addressed by referring requestors to the Library website, as well as through assistance provided by branch staff and the TPL Privacy team in responding to customer inquiries.
